

LIVE2 AFRICAN LOGICAL FRAMEWORK

Results Chain	Indicator #	Indicators	Means of Verification	Assumptions and Risks
IMPACT: A transformed livestock sector that significantly contributes to Africa' sustainable socio-economic development and equitable growth	1	% contribution of livestock and livestock products to Intra African Trade;	UNECA, FAO and CAADP Reports	Stable macro economic operating environment
	2	Change in poverty gap ratio among livestock dependent communities;	UNECA;	
OUTCOME: Systemic capacities of continental, regional and national Livestock Sector stakeholders are strengthened for sustainable transformation of the livestock sector.	3	% increase in uptake of technologies across LVCs	AU-IBAR Surveys reports	Sustained goodwill of Member States and Regional Economic Communities and Continental institutions to implement capacity building programmes
	4	# of MSs attaining level 3 or above Performance Veterinary Services (PVS).	OIE PVS Reports	
	5	% increase in public sector investments in LVCs	CAADP Reports;	
	6	% increase in private sector investments in LVCs	CAADP Reports;	
	7	# of MSs with functional Animal Resources Information management systems	AU-IBAR Surveys and M & E Reports	
	8	# of MSs and RECs with functional regional livestock market information systems	AU-IBAR Surveys and M & E Reports	
	9	# of African Common positions on animal health and food safety (animal origin) standards adopted by OIE and Codex	OIE; CODEX reports; AU-IBAR Reports	
	10	Livestock production sector growth rate	UNECA; National Reports	

Results Chain	Indicator #	Indicators	Means of Verification	Assumptions and Risks
OUTPUTS				
Result 1: Investment in livestock value chains are increased.				
Output 1.1: Priority and promising new VC showcased.	11	# of livestock value chains mapped and published	AU-IBAR M & E Reports	RECs and MSs willingness to adopt policies, legal frameworks and mechanisms designed to enhance the performance of their LVCs
	12	# of priority value chains supported	AU-IBAR M & E Reports	
	13	# of regional and national hubs supported to enhance performance of LVCs	AU-IBAR M & E Reports	
Output 1.2: Policies, regulatory frameworks and strategies to enhance LVC performance publicised.	14	# of RECs and MSs supported to develop policies/ regulatory frameworks /stragies to enhance performance of LVCsusing models developed by VET-GOV project	AU-IBAR M & E Reports	
Output 1.3: Innovative incentives and financing mechanisms for increased investment along the LVC expanded.	15	# of feasibility studies on the establishment of value addition carried out	AU-IBAR M & E Reports	
	16	# of transformative trainings supported	AU-IBAR M & E Reports	
	17	# cross sectional dialogue mechanisms and partnernships established/ supported	AU-IBAR M & E Reports	
Result 2: Animal health delivery systems improved.				
Output 2.1: PVS competencies strengthened.	18	# of follow up PVS Missions to selected Member States to determine the current state of play of the NVSs	AU-IBAR M & E Reports	MSs willingness and timely availability of resources to support implementation
	19	# of Member States assisted to formulate Investment Plans and resource mobilization to address outstanding gaps in Veterinary Governance and Veterinary Legislation	AU-IBAR M & E Reports	
	20	# of African Experts trained on PVS Gap Analysis and verterianry legislation support	AU-IBAR M & E Reports	
	21	# of MSs supported to develop strategic plans	AU-IBAR M & E Reports	

Results Chain	Indicator #	Indicators	Means of Verification	Assumptions and Risks
	22	Guidelines, inclusive of QRA (Quality risk assessment) developed and published	AU-IBAR M & E Reports	
	23	# of MSs supported to formulate proposals and mobilise resources on emergency preparedness and response	AU-IBAR M & E Reports	
	24	# of countries and RECs in which recommendations of the stocktacking on one health initiatives are piloted	AU-IBAR M & E Reports	
Output 2.2: Capacity for coordination and implementation of integrated quality animal health services strengthened.	25	# RECs and MSs to supported to establish/ strengthen sustainable integrated coordination mechanisms to harmonize and enhance animal health service delivery, SPS standards and the control of TADs and zoonoses	AU-IBAR M & E Reports	
	26	# of regional animal health centres established/ strengthened	AU-IBAR M & E Reports	
	27	# of RECs and MS supported to develop PPR strategies	AU-IBAR M & E Reports	
	28	A continental framework on PPP published	AU-IBAR M & E Reports	
Result 3: Animal production, productivity and ecosystem management systems are enhanced				
Output 3.1: Genetic potential and performance of animals improved.	29	# of MSs/ RECs supported to formulate/ update and implement their AnGR policies/ legislation	AU-IBAR M & E Reports	MS willing to support studies and implement recommendations
Output 3.2: Sustainable best practice in NRM adopted;	31	# of scoping studies in each region to identify interventins for upscaling in natural resources management	AU-IBAR M & E Reports	
	32	# RECs and MSs supported to implement climate smart technologies and practices	AU-IBAR M & E Reports	

Results Chain	Indicator #	Indicators	Means of Verification	Assumptions and Risks
Output 3.3: Access to quality feed and water enhanced.	33	A scoping study of pastoral systems to identify gaps carried out	AU-IBAR M & E Reports	
	34	# of proven water harvesting and feed conservation technologies promoted	AU-IBAR M & E Reports	
Result 4: Resilience of livestock production systems strengthened				
Output 4.1: Livestock Early Warning Systems (LEWS) strengthened.	35	# of MSs and RECs supported to strengthen LEWS	AU-IBAR M & E Reports	MSs willing to participate in strengthening LEWs and DRM initiatives
	36	# of African experts trained in collecting, analysing and application of LEWs data.	AU-IBAR M & E Reports	
Output 4.2: Disaster Risk Management (DRM) enhanced.	37	# of African Experts trained on disaster risk reduction	AU-IBAR M & E Reports	
	38	# of MS and RECs supported to formulate proposals for enhancing resilience of livestock production systems	AU-IBAR M & E Reports	
Result 5: Technology adoption systems in the LVCs strengthened				
Output 5.1: Adoption of modern technology to enhance production, productivity, value addition and competitiveness publicised;	39	# of Studies on existing technologies across priority regional livestock value chains carried out and appropriate publications produced and disseminated	AU-IBAR M & E Reports	Livestock keepers in the traditional sector willing and capable of transition to commercial practice
	40	# of assessments of gender-sensitive technologies across priority LVCs undertaken	AU-IBAR M & E Reports	
	41	# of regional Technology and Innovation Incubation hubs in Africa (A-TiChubs) and centres of excellence established and operationalised	AU-IBAR M & E Reports	
	42	# National extension and REFIL services, technical and infrastructure capacities strengthened		

Results Chain	Indicator #	Indicators	Means of Verification	Assumptions and Risks
Output 5.2: Animal resources knowledge enhanced;	43	# of African Experts from MSs and RECs trained on new ARIS Modules and on ARIS operations	AU-IBAR M & E Reports	
	44	# of data working groups established and strengthened within National Policy Hubs		
Outcome 6: Access to inputs, services, markets and value addition increased.				
Output 6.1: Harmonised livestock marketing information systems showcased;	45	# of African Experts trained on livestock market Information systems trained	AU-IBAR M & E Reports	MS willing and able to adopt and deploy marketing services policies
	46	# of MSs supported in formulating proposals for enhancing market infrastructure, policies and legislation	AU-IBAR M & E Reports	
Output 6.2: Post harvest losses reduced;	47	A continental LVC inputs and services value addition strategy developed	AU-IBAR M & E Reports	
	48	# of technologies on post harvest losses reduction identified and promoted	AU-IBAR M & E Reports	
Output 6.3: Access to quality affordable inputs and services expanded.	49	# of policy frameworks on affordable inputs and services formulated and implemented	AU-IBAR M & E Reports	
	50	# of African Experts trained on enforcement of quality standards	AU-IBAR M & E Reports	
Result 7: AU-IBAR continental capacities strengthened				
Output 7.3 capacities for project coordination strengtnered	51	Number of staff engaged disaggregated by function	AU-IBAR M & E Reports	Recruitment process carried out and completed for all positions and staff remain in positions
